## About This Game

**Star Souls** is a game about a galactic cataclysm. One by one, the stars began to die without reason. Thousands of inhabited worlds turned to dust. You should find a Transition leading to other worlds. Vanguard the fleet, customize your spaceships and fight for salvation of all intelligent life!

The game offers you a lot of game situations, variety of experiences, each time unique, interesting sci-fi story and exciting ending. Throughout the adventures, you will be inspired by the beautiful views of deep space and awesome music!

## Gameplay:

- **Exploration:** travel through the space, where you can handle emerging enemy threats and perform different missions.
- **Combat:** battles occur in real time with a tactical pause while the player should redistribute energy between the on-board systems and watch the serviceability of the fleet spaceships, avoid meteorites and hazardous fields, hide in nebulae and make way through space debris.
- **Fleet management:** customize your fleet and upgrade your spaceships as well as install various weapons and modules on them.
- **Story events:** the game produces story events that lead to combat, bonuses/negatives, and many number of fantastic in-
